PROFILE

Committed developer, experienced in delighting customers with carefully crafted applications. Looking to leverage 5 years of experience translating ideas into software towards the challenging new world of Software Robotics, Automation and Machine Learning.

EXPERIENCE

Robotic Applications Development

ExxonMobil - Mar to Nov 2017

Head the development and implementation of software robotics such as chat bots across the corporation

- Designated to develop the company's virtual assistant chat bot, utilizing artificial intelligence and natural language processing to understand and complete chat based requests
- Upon the Chemicals President's request, successfully delivered a chat bot for instant message broadcasting in 2.5 months
- Provide training and consulting to new teams in chat bot development, helping start the creation of 15 chat bots
- Advertised software robotic technologies to international audiences in conferences and workshops

Automation Developer

ExxonMobil - Jun 2015 to Feb 2017

Create software automation workflows for company processes to generate efficiency and savings

- Automated user creation and password reset processes, generating over \$100k in yearly savings
- Designed a framework to allow easy creation of forms for the company's IT Services portal, with 80k potential users
- Implemented the back end REST API to support the framework, enabling more developers to create automated requests

Systems Analyst – Tools Developer

ExxonMobil – Jun 2012 to Jun 2015

Skills Used in this role

JS/JQuery	● ● ● ● ●
HTML/CSS	● ● ● ● ●
Executive Support	● ● ● ● ●
C# .NET Desktop	● ● ● ● ●
BMC ITSM	● ● ● ● ●
MS SQL/Access	● ● ● ● ●

Optimize Customer Services processes by creating tools for analysts and provide specialized technical support

- Created tool to automate account creation process, including any resources new employees would need to work, saving up to an hour in 3-5k monthly requests
- Developed web-based reporting application to track analyst issue resolution metrics, eliminating manual reporting work
- Trusted with handling of sensitive customers and projects such as president and vice president changes, on-boarding and migration of 200+ users simultaneously
